

Single Component Solutions An adaptive array of choices

In addition to full-fledged pooling and component support programs, AFI KLM E&M also offers solutions to repair your components in an efficient closed loop process with flat rates or T&M prices. Adaptiveness[®]: this support is especially convenient for customers looking for full flexibility in their individual component MRO management.

Economics

- AFI KLM E&M is able to offer quality, long-lasting repairs at an optimized price.
- AFI KLM E&M is fully compliant with OEM maintenance programs. As an alternative choice to minimize costs, we can also offer our large range of DOA/DER approved Repairs.
- To fit all customer preferences, we offer standard T&M conditions or tailor-made solutions such as flat rates excluding parts, or all-inclusive rates.
- In many cases, exchange solutions can be offered based on AFI KLM E&M Component pools supporting more than 1300 aircraft worldwide.
- Variable 'Beyond Economic Repair' (BER) limits based on Fair Market Value

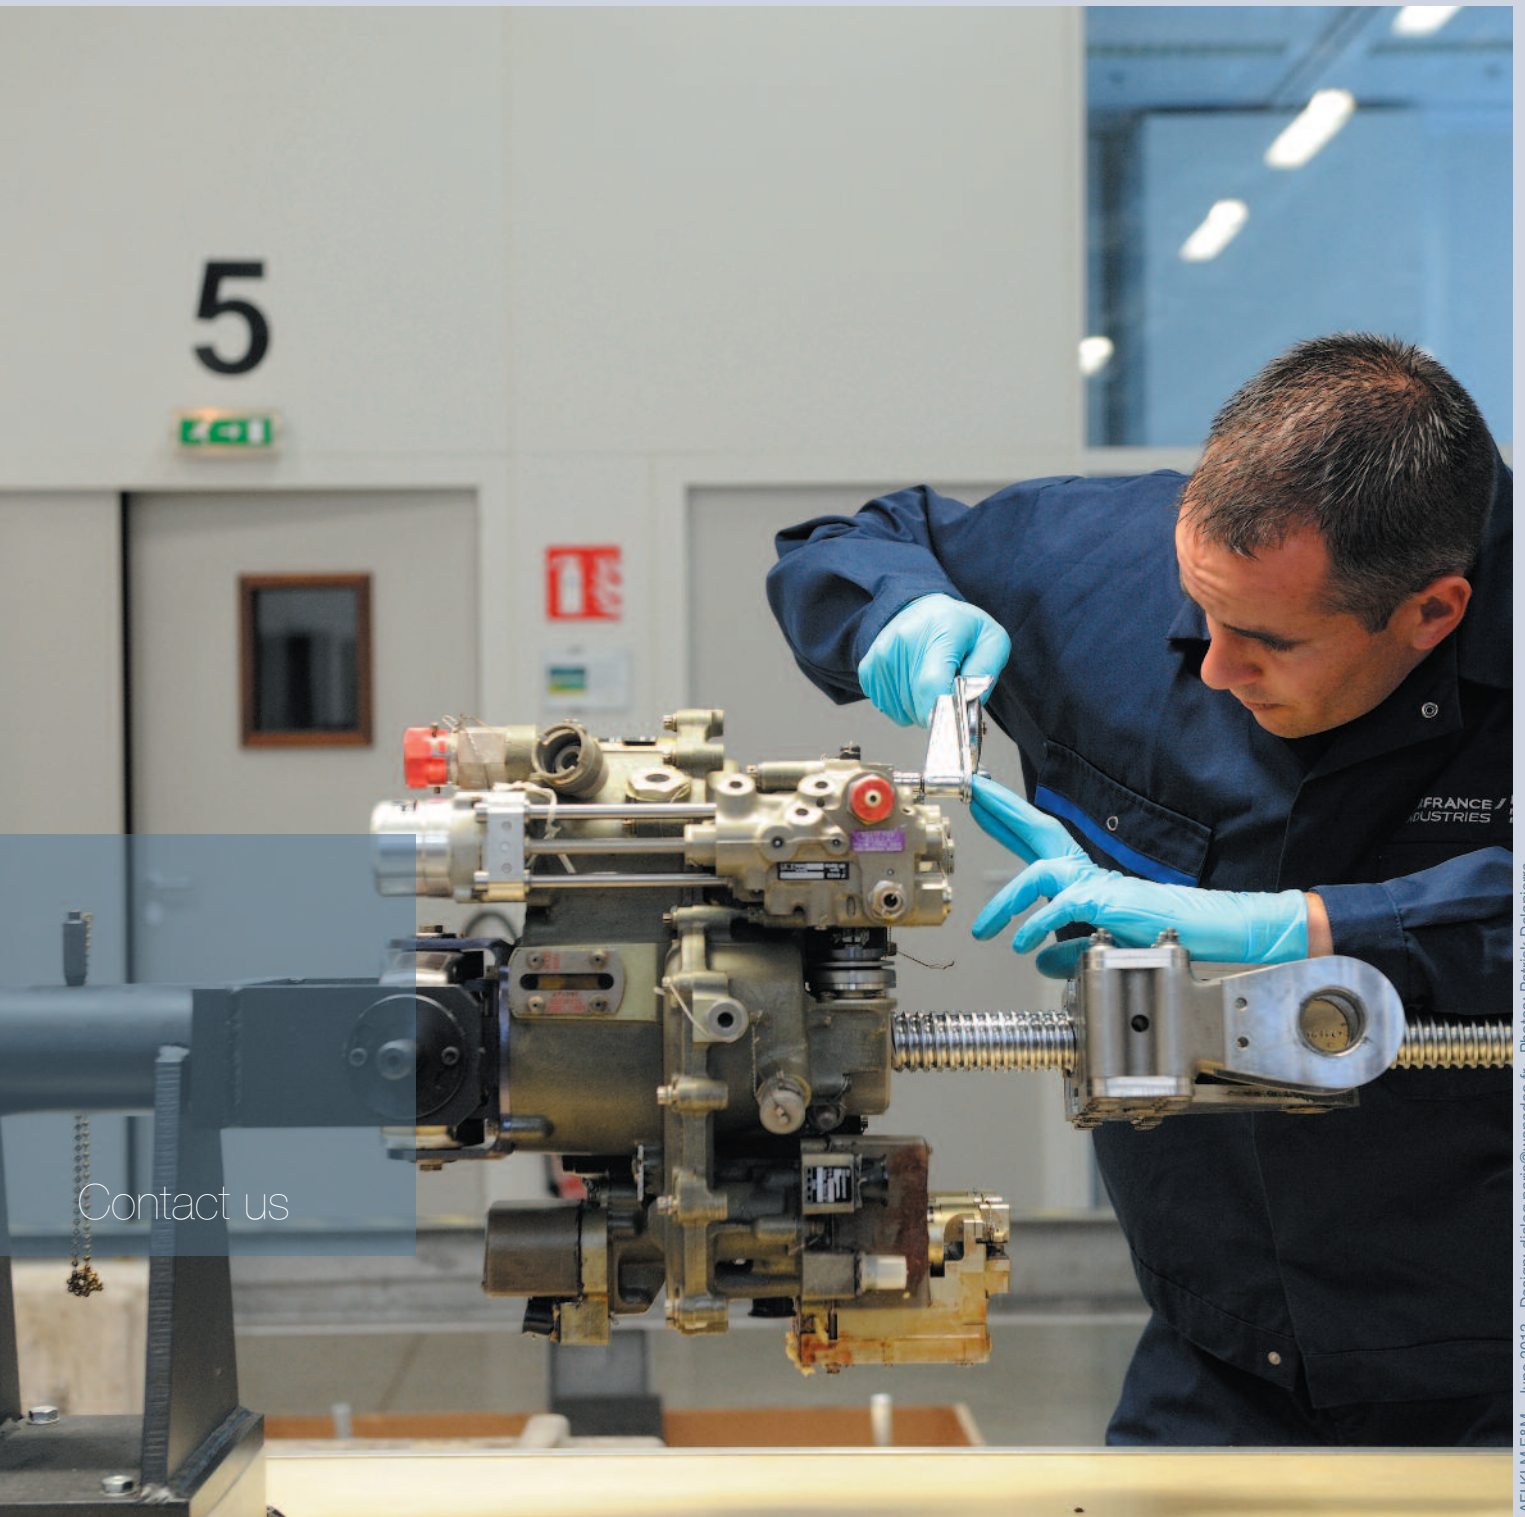

TAT management & reactivity

- **Reliable Turn Around Times**
- Capability search and quotation request can be done **online**, via our website www.afiklmem.com
- Quote response time **within 2 working days**
- **Dedicated customer support** to answer all questions, insure follow-up, set-up exchange solutions, confirm test and/or inspection results to determine the workscope and applicable cost.

Comprehensive solutions

- AFI KLM E&M operates state-of-the-art test & repair facilities, with all processes designed by LEAN Six Sigma at all stages.
- **Extensive capability list of more than 45,000 part numbers, covering many aircraft types** (all A320 family/A330/A340 & A380, 737, 747, 767, 777 & 787 and E-jet) and all technologies (pneumatic, hydraulics, avionics, mechanics, safety & emergency, ...)
- Specialized technical Centers of Excellence in Composite repairs, Wheels & Brakes, Slides, IDG & Generators, ECU, Heat exchangers and Insurance items.
- AFI KLM E&M's global network, with repair shops in Europe, USA, India and soon China, allows local solutions close to the customer base.
- AFI KLM E&M's regional logistic centers in Atlanta, Miami, Shanghai, Singapore and Kuala Lumpur back worldwide logistics solutions.
- Dual release certification for EASA/FAA for all components. A large share of them also certified to CAAC and TCCA standards, or other legislations upon request.
